

**All text is shown on the screen and also is read to them. They move through the instructions using a slider (see clip 2). The slider only appears after the audio clip of the read instructions finishes playing.**

### **Clip 1 - Welcome**

Howdy! In this experiment, you'll be an explorer traveling through space to collect space treasure. Your mission is to collect as much treasure as possible.

### **Clip 2 - How to move forward or back**

If you want to read more instructions, click on the green planet. If you want to go back and re-read the instructions on the last page, click on the blue planet. The planet you clicked will then be highlighted. Once it's been highlighted, press the space bar to lock in your choice

### **Clip 3 - Goal of game**

As a space explorer, you'll visit different planets to dig for space treasure, these pink gems. The more treasure you dig up, the more bonus money you'll win!

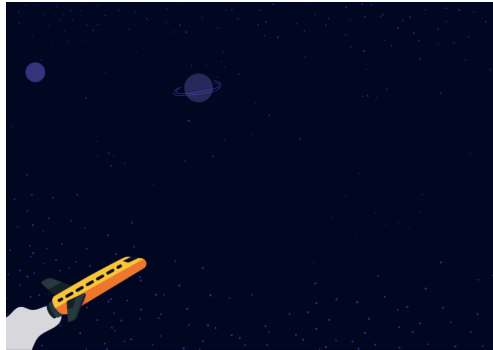

### **Clip 4 - Dig**

When you've arrived at a new planet, you will dig once. Then, you get to decide if you want to stay on the planet and dig again or travel to a new planet and dig there.

To stay and dig, press the letter 'A' on your keyboard. Try pressing it now!

### Clip 5 - Travel

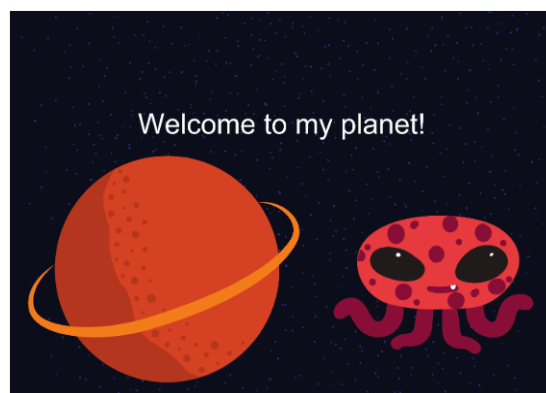

Every time you dig up gems, there are less gems on the planet, so the more you dig on a planet the fewer gems you'll get with each dig. When gems are running low, you may want to travel to a new planet. Planets are very far apart in this galaxy, so it will take some time to travel between them.

There are lots and lots of planets for you to visit, so you won't be able to return to any planets you've seen before.

To leave this planet and travel to a new one, press the letter 'L' on your keyboard. Try pressing it now!

### Clip 6 - Alien

When you arrive at a new planet, the alien who owns the treasure mine on that planet will greet you!

The better an alien takes care of their mine the easier it is to dig for gems. Some aliens take better care of their mine than others. So, you won't get exactly the same amount of gems on each planet.

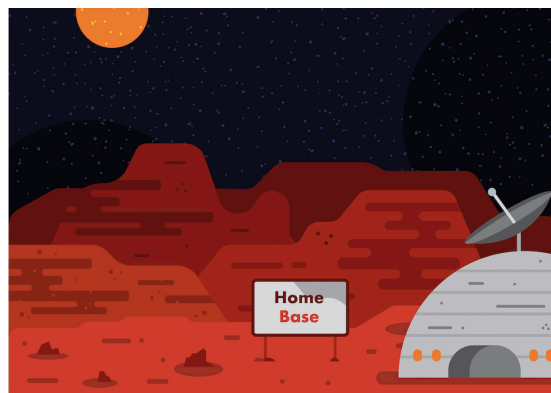

What the alien looks like does not tell you anything about how many gems there are on the planet.

### Clip 7 - Time out

If you don't make your choice fast enough, you'll have to wait a few seconds before you can make another one. You can't dig for more gems or travel to new planets. You just have to sit and wait.

### Clip 8 - Break

After digging and traveling for a while, you'll be able to take a break at home base. The game will last 20 minutes no matter what. You will visit home base every 5 minutes, so you will visit home base three times during the game.

### Clip 9 - Practice

Are you ready to play a practice game? In this practice game, you'll be digging up barrels of gems. But, in the real game, you'll be digging up the gems themselves. You can start the practice game now or re-read the instructions.

### Clip 10 - Quiz

Great job on the practice game! Now, I'm gonna ask you some questions to make sure you understand the game.

*Quiz questions - present each question one at a time*

Clip 11 - How do you win extra money?

- Visiting more planets
- Staying at home base longer
- Collecting more gems

**Clip 12: If correct:** That's correct. You win extra money by collecting more gems.

**Clip 13: If incorrect:** That's incorrect. You win extra money by collecting more gems.

Clip 14: The length of this experiment

- Depends on how many planets you've visited
- Is 20 minutes no matter what
- Depends on how many gems you've collected

**Clip 15: If correct:** That's correct. The experiment is 20 minutes no matter what.

**Clip 16: If incorrect:** That's incorrect. The experiment is 20 minutes no matter what.

Clip 17: You press what letter on your keyboard to travel to a new planet?

- A
- L

**Clip 18 - If correct:** That's correct. You press the letter L to travel to a new planet.

**Clip 19 - If incorrect:** That's incorrect. You press the letter L to travel to a new planet.

Clip 20 - The more you dig on a planet the fewer gems you'll get with each dig

- True
- False

**Clip 21 - If correct:** That's correct. The more you dig on a planet the fewer gems you'll get with each dig

**Clip 22 - If incorrect:** That's incorrect. The more you dig on a planet the fewer gems you'll get with each dig.

Clip 23 - Does the alien tell you anything about how much treasure is on the planet?

- Yes
- No

**Clip 24 - If correct:** That's correct. The alien tells you nothing about how much treasure is on the planet.

**Clip 25 - If incorrect:** That's incorrect. The alien tells you nothing about how much treasure is on the planet.

**Clip 26 - Correct**

Good job! You're now ready to move on to the real game!

**Clip 27 - Incorrect**

Oops, you missed some questions. Now that you've heard the correct answers. Try the quiz again!

**If they have done the quiz 2x and missed at least 1 question each time, then they are excluded from the study.**

**Clip 28 - Practice again or start real game?**

Now that you know how to dig for space treasure and travel to new planets, you can start exploring! Do you want to go over the instructions again or get started with the real game?

**Clip 29 - go over the instructions again**

In this game, your goal is to collect as many gems as you can. That's how you will win bonus money. The entire game will last 20 minutes no matter how many gems you collect or how many planets you visit. To stay on a planet and dig again, press the letter A on your keyboard. To leave for a new planet, press the letter L. The more you dig on a planet, the fewer gems you'll get with each dig which is why you might consider leaving for a new planet. When you arrive at a new planet, you'll be greeted by an alien. What the alien looks like does not tell you anything about how much treasure is on the planet.

**Clip 30 - explain the comparison block**

Great job collecting treasure! We're now going to ask you some questions about the aliens you met. Some aliens took better care of their mines, and so it was easier to collect treasure from them. You'll be shown one main alien and be asked to pick one alien amongst 3 who was most similar to the main alien based on how well they took care of their mines.

**Clip 31 - end of game**

Congrats! You are done with the experiment! You made \$10 and some bonus money on top of that! You will receive an Amazon giftcard with this amount in the next 3 days. Press the button below to end the experiment.
